The best journeys are inwards, and to cover this distance we keep struggling with thoughts. But little do we realise that solutions lie within us and not at some mountain peak where we camp our base for days to beat the blues of a chaotic mind. A Mumbai based group, Kryon Source, is in town to help provide you the answers to all your 'what-went-wrong' dilemmas, be it sexual, emotional or physical. Keep reading for further dope.

PEACE REALISED

Generally motivational speakers, spiritual healers and related service providers don't buy what they sell because they don't personally live by the rules they set for others. With Rita and Sajili of Kryon Source, it's hard to spot that disconnect. Says Sajili, who runs a publishing house in Mumbai, "I started as a participant of one of the courses of Kryon Source, and benefited so much from it that I decided to be one of the trainers." Often we ask ourselves, "what did I do to deserve this sh**?" but everything that we get is a by-product of our own act. "There's nothing we're not responsible for but it's just that we fail to dot our faults. Now where do we come in? We make you travel to the roots of these problems where you can derive your own reasons and solutions. Now the root could be in this birth or the last one," asserts Shajila. Another trainer Rita, adds, "And believe us, it's not rocket science to establish the cause and affect relationship. We're no babas who promise you

results within 15 days. With us, results are instant. We don't even have a fixed duration of workshop. Some participants take an hour to find solutions and some don't even get it in 12 hours but we never stand on their heads to tell them that its time to go back home." Who doesn't want to be socially accepted, loved and cared? The workshop empowers you to do that.

WHY DO YOU NEED IT?

"Log do-do bachche paida ker lete hai and they don't even know the basics of sex. We exist because of sex. But no mom would sit and talk to her daughter about sex because she thinks that it is a 'dirty subject'. Everything that we know about sex is learnt from the hush-hush conversations that we had as teens. Sex is not controversial, its spiritual and we'll tell you why spirituality and sex are not distant relatives," remarks

Rita who along with other facilitators also conducts Sex to Spirituality workshop that considers sex as a creative energy, adding punch to life and helping shed the prejudices around.
